

# Belt Conveyor Products (BCP) 2018 Training School

ONLINE • ON-SITE • IN CLASS

Flexco's BCP Training School provides valuable belt conveyor systems and components training, market application analysis and recommendations, and common-sense, problem solving techniques in a 2-1/2 day agenda. Join us and:

- Identify common belt conveyor maintenance problems and explore end-user needs.
- Learn about Flexco's latest product releases.
- Explore the complete line of Flexco conveyor products in the classroom.
- See how cleaners are installed during hands-on sessions on our training conveyor.
- Go on a site visit to a local quarry where BCPs are installed and in use.
- Examine the importance of maintenance, service and safety.
- Objectively compare conveyor components available in the market.

Our experienced staff will lead group discussions, work through specific problems and challenges in your markets, and answer questions. They will also guide you through product installation and maintenance. And you will leave with a complete set of reference materials to help you find answers when you are in the field or the office. See the schedule below and enroll now!

**All BCP Schools are held in the Training Center at Flexco Grand Rapids  
1995 Oak Industrial Drive, NE • Grand Rapids, MI 49505**

For more registration information visit [www.flexco.com](http://www.flexco.com)
