

Heavy-Duty Mechanical Belt Fasteners 2018 Training School

Flexco Heavy-Duty Products School provides technical training, application insights, and common-sense problem solving tips for our comprehensive line of heavy-duty conveyor products in a 2-day agenda. Join us and:

- Tour our manufacturing area to see how fasteners are made
- Explore key heavy-duty mechanical belt fastener products
- Discuss how to select the best fastener for the job
- Review proper installation procedures and best practices
- Learn basic troubleshooting and situational tips from experienced installers
- Participate in hands-on sessions with fasteners and tools

Our experienced trainers will lead discussions that address the specific problems and challenges faced when splicing and maintaining heavy-duty belts, answer questions, and demonstrate product installation with a variety of tools. See the schedule below and enroll now!

***Flexco Heavy-Duty Mechanical Belt Fastener Training Schools
are held at the Flexco corporate office located in Downers Grove, IL***
